## 7 DIE FIGHTING FLAMES

## Lima Firemen Hurt In Garage Blaze

## DAMAGE SET AT \$150,000 BY OWNERS

Cigar Factory and Automobile Sales Firm Destroyed

## ICE HANDICAPS DEPARTMENT

Falling Bricks Menace Adjacent Buildings During Fire

Battling in the intense cold, firemen finally halted the progress of an early morning fire at the Leist-bldg 133-35 E. Spring-st. after damage of \$150,000 had been inflicted upon the firms located therein.

Firemen were covered with ice and greatly handicapped in their efforts to keep the fire from spreading to other buildings and sweeping the whole block.

Business places occupied by the Fisher garage, the San Alto cigar factory and the Chandler automobile sales company were practically destroyed by the fire that is believed to have started in the cigar factory.

## FIREMAN HURT

Tom Jordan, 321 W. Wayne-st., a fireman at No. 3 station, was struck by falling bricks when a wall collapsed. He was not seriously hurt.

Chas. Ashton, driver at Central station, had his face frozen and George Myers, No. 2 station, had his hand frozen. Other firemen were suffering from frozen ears and frost bitten hands and faces.

Reports that frozen fire hydrants interfered with efficiency in combatting flames Monday at the Leist-bldg. E. Spring-st. were scoffed at and declared unfounded by Assistant Fire Chief Eyster and City Manager C. A. Bingham.

"The pressure was high and there was plenty of water," Eyster announced after the fire, in a report to Central Fire department and also in his report to City Manager Bingham. "I did not find or hear of a frozen hydrant," Eyster declared.

Lives of Mrs. Frank Shriver and her small son, both confined to their beds by illness, were endangered when tons of brick from the wall of the building fell upon their apartment above the Ohio Used Car exchange, adjoining the burning building.

They were nearly shaken from their beds and it was found necessary to remove them in an ambulance to the home of a relative. A small dog, a pet of the boy, is believed to have been buried under the mass of brick. A blanket of snow and ice covered the property occupied by Miss Sutherland, on the east of the garage building from serious damage. As it was of brick construction it was affected only slightly when the walls of the garage gave way.

## HEAVY DAMAGE

Damage of \$50,000 was reported by H. M. Cohn, proprietor of the San Alto cigar factory. Loss in Fisher garage and the Chandler Sales Company is expected to reach \$100,000.

Part of the automobiles in the garage were saved but it is estimated that between 15 and 20 were destroyed. W. H. Fisher, proprietor of the garage and part owner of the Chandler Sales company, was in Cleveland with his partner Monday getting new automobiles. Exact damage will not be known until he returns.

Bernie Clark, driver for the Red Top taxi line, discovered the fire about 10 a. m. Monday. He sent in the alarm to the fire department and accompanied those whose property was endangered.

Lines of hose played water on the fire but it was soon discovered that the garage was doomed and firemen devoted their efforts to keeping the flames in check and preventing the destruction of neighboring buildings.

The intense cold made it very difficult for the firemen to battle the blaze. Thick coating of ice soon covered the buildings and the streets and hampered their work. Frozen clothing and frostbitten fingers and hands added to the trials of the firemen.

Chief John Mack, informed as to the severity of the fire, left the bedside of his wife, who is very ill, and took personal charge of the department.

Rob Shaffer, proprietor of the Jarrod House, sprained his ankle while carrying hot coffee and sandwiches to the firemen.

## LIMA IN GRIP OF COLD WAVE

Temperature Lowest this Winter as Thermometers Register 13 Degrees Below Zero—Slight Relief Is Promised for Tuesday by Weather Bureau

Lowest temperatures for the year were registered in Lima Sunday and Monday when a second cold wave descended upon the city.

Beginning Sunday morning the temperature dropped slowly until Monday morning it was officially estimated at the Solar Refinery as being 13 degrees below zero. By 8 a. m. the thermometer registered 12 below zero and at noon the temperature was 3 degrees below zero.

A stiff wind from the west added to the disagreeableness of the weather and served to keep the usual crowds of shoppers from the streets.

Railroad, interurban and street car traffic was not impeded to any great extent and the taxi lines found themselves swamped with calls from office workers on their way down town.

## AUTOS FROZEN

While automobile radiators were frozen and garages were busy answering calls from motorists whose automobiles refused to start, citizens were not adversely affected by the cold.

Miss Ella Mackenzie, veteran deputy in the office of the county clerk of courts, collapsed following her arrival at the court house. She had walked from her home, as is her custom, and the effort proved too much for her. After a short rest she was able to resume her work.

Radiators in county automobiles were found frozen when Sheriff Harvey Crosson and deputies visited the county garages Monday morning. The door of the garage had become unfrozen in some manner. It was said.

## INK WELLS ON DESKS IN CITY HALL

Ink wells on the desks in city hall and in several other office buildings were found to be frozen when employees reported for work.

Work on the bridges over the Ottawa river at High-st and Bellefontaine-av was halted by the contractors because of the intense cold. It will be resumed as soon as the weather becomes warmer.

## AID GIVEN

Aid to nearly destitute families by charitable organizations alleviated suffering to some extent with increasing calls being recorded as no relief from the frigid weather is indicated.

The Family Welfare association responded to pleas for children's shoes and clothing. Scarcity of coal in many families with no income due to unemployment constituted the majority of calls for assistance.

Two pitiful cases were brought to attention of workers and relief given with promise of further investigation to provide future comfort.

Calls for clothing, money and bed clothing were sent out by the association Monday. "We are greatly in need of every kind of supplies to aid the suffering people of Lima," E. M. Botkin, chairman of the board of directors of the organization, said.

The Rescue Home at E. Wayne-st and N. Central-av. responded with meals and lodgings to the unfortunate victims of the cold wave. The house was packed Saturday and Sunday nights for both lodgings and meals.

Life of one man, whose name was not obtained, was saved when police took him to the home nearly frozen after hours of exposure. The man's feet, hands and ears were frozen. He was huddled in a doorway when officers discovered him. After lodging and meals had been provided and funds raised the man left the city.

The Salvation Army issued clothing and food in response to many calls and Monday morning an increased demand for assistance was noticeable, which is believed will collapse the record established in the frigid wave of two weeks ago.

A transient, age 68, who walked from Sidney and received aid en route, was equipped with suitable clothing and given food at Salvation Army headquarters. The man was so numbed with cold when he asked for aid that considerable attention was required to make him comfortable.

Lowered gas pressure alarmed consumers but reports from Lima Natural Gas Co. promise a sufficient supply to meet increased demands.

City waterworks department Monday morning was deluged with calls of frozen water pipes. None of the distributing mains burst but hundreds of homes were flooded by pipes which burst early Monday morning.

## SOUTH FREEZING

ATLANTA, Ga. (United Press).—The south was freezing today for the second time this winter.

A severe cold wave bringing with it near zero temperatures from Tennessee to northwest Florida came into the south during the night and

further declines were predicted generally for today.

## COLD WAVE BRINGS DEATH TO FOUR

COLUMBUS, (United Press).—The second intense cold wave of the winter was upon Ohio today.

Snow driven before a strong westerly wind, hit many sections and temperatures were reported as low as 8 degrees below zero.

Columbus weather bureau predicted warmer Tuesday.

Ice glazes which drove the temperature down eight degrees below zero along Lake Erie, were held responsible for three deaths at Cleveland.

John Nemeseck, 15, and his brother, Frank, 17, were killed by carbon monoxide fumes from a stove left burning in a room which was not properly ventilated because of the cold.

Armstrong Smith, 52, dropped dead at the door of the McKinney Steel Company, after walking several blocks against a strong wind. Physicians said over-exertion had resulted in a heart attack.

Reports from several of the principal cities in the state—Cleveland, Cincinnati, Toledo, Akron and Youngstown—said the homeless and poor were swamping charitable institutions with calls for help.

Train service was delayed in many parts of the state and inter-city bus service was irregular.

Frozen switches in the snow-swept cities interrupted street car service and garages were crowded with hundreds of automobiles brought in for shelter from the cold.

Reports from Chicago indicated the cold wave caused suffering throughout the middle and northwest.

A baby girl abandoned in an elevator froze to death in Chicago and a series of week-end fires caused property damage of approximately \$1,000,000.

Three inches of snow blanketed St. Louis where the mercury dropped to zero.

Indianapolis and other Indiana points were in the grasp of icy blasts with thermometers standing at seven below, the second coldest day of the winter. A 25-mile an hour wind made the cold more penetrating.

## WALTON IS AGAIN DEFEATED

Supreme Court Refuses to Review Oklahoma Case

WASHINGTON—(United Press).—The petition of former Governor Walton of Oklahoma, for a review of his impeachment and removal from office by the Oklahoma legislature, was denied today by the United States supreme court.

The decision of the supreme court to refuse to take under consideration the proceedings by which Walton was impeached and removed has no direct bearing on the merits of the case.

Walton appealed to the supreme court for a review on the grounds his trial had not been constitutional. The court decided today it had no jurisdiction or reasonable cause to interfere.

Walton has another appeal still pending before the court but the ruling of the court today was regarded as final.

## MEETING POSTPONED

Postponement of the meeting Monday night of city commission until Tuesday night was announced Monday by Mayor Earl Moyer, who stated that city officials agreed to accept the invitation of Lima Automobile association to attend the annual meeting at which Thad H. Brown, secretary of state, and Highway Director Bouley will be the principal speakers.

## FIRE BRINGS DEMAND FOR NEW PUMPER

Jones to Ask Commission to Purchase New Apparatus

ESTIMATED COST \$13,000

Present Equipment Inadequate Declares Bingham

Purchase of a 1,000 gallons-a-minute motorized pumper for Lima fire department will be asked Tuesday night of city commission by Commissioner Ellis R. Jones as the result of the disastrous \$150,000 fire Monday morning.

Estimated cost of the pumper is between \$13,000 and \$17,000, according to Commissioner Jones, who stated that he will request the issuance of bonds for the purchase.

City Manager C. A. Bingham Monday morning went on record that the fire fighting equipment is inadequate to protect the city in event of a big fire.

He favors the immediate issuance of bonds for the purchase of a high powered pumper and eventual elimination of the 350 gallon one hose pumpers now used.

## "CRIMINAL NEGLIGENCE"

"It is criminal neglect to attempt to combat fires in the business section with such equipment, especially the one hose pumpers," City Manager Bingham said.

"The fire Monday morning was a warning that should be heeded," Commissioner Jones stated, "and Tuesday night I will present true facts to commissioners in hope that they will authorize the purchase of new equipment."

Eventful reorganization of Lima fire department with modern pumps of 1,000 gallons capacity is proposed by both Manager Bingham and Commissioner Jones.

Bingham stated that the bond issue could be for a period of five years or 10 years or for a period of the life of the pumper, which in most cities is from five to 10 years.

Lima fire department is now equipped with three gasoline propelled pumps with a pumping capacity of 350 gallons each a minute or a total pumping capacity of 1,050 gallons a minute.

## THRU ONE HOSE

All pumping is thru one hose instead of four hoses or more as perfected on the modern pumps, the capacity of one which is practically the equal of the three used by the department.

"Had there been a high wind Monday morning the entire E. Spring-st. block would have been wiped out," City Manager Bingham stated in commenting on the need of new apparatus.

"Firemen gave wonderful service and should be commended for their work under adverse circumstances," Bingham said, "but the fire had gained such headway that the city is indeed lucky that the loss was not greater."

## TRAIN HITS AUTO, TWO ESCAPE

Driver Steps on "Gas" Engine Strikes Rear Bumper

OTTAWA—Fred Laubenthal, farmer, residing near Ottawa, and Joseph Thome, farmer, of near New Bavaria, narrowly escaped death when the automobile in which they were riding was struck Sunday night by Baltimore & Ohio passenger train No. 54, due in Ottawa at 4:03 p. m.

Thome and his family had come to the Laubenthal home for a Sunday visit. The men took Thome's car and drove to Ottawa on an errand. As they reached the Third-st. crossing, not far from the Baltimore & Ohio station, the Detroit River running late, bore down upon them.

Thome, who was driving, stepped on the gas. The big engine struck the bumpers, just as the car had cleared the tracks. Thome kept to the wheel and safely piloted the car over the dangerous crossing.

Neither man was thru from the car, which was skidded in the ditch near the crossing. The car was damaged to the extent of less than \$100.

LET THE WINDS HOWL!

Wisconsin's icy blasts mean only joy to this Missouri lassie. She's Lucile Higon of Sedalia, one of the prettiest of all entrants from the University of Wisconsin in Madison's annual winter carnival on Lake Mendota. And say, you ought to see her cut a figure right!

## CHARRED BODY OF AGED WOMAN FOUND IN HOME

CINCINNATI—The charred body of Mrs. Emma Hicks, 79, was found in her room yesterday. It had lain there from three to five days, within 15 feet of other tenants of the building, the coroner's verdict showed.

The woman is believed to have slept so close to the stove that her clothing became ignited. She was the widow of a Civil War veteran.

## GEN. LEE CHRISTMAS DIES AT NEW ORLEANS

NEW ORLEANS—General Lee Christmas, 61, soldier of fortune and tropical explorer and commander, died at Touro hospital here at noon today from a tropical disease, contracted several months ago. General Christmas has been at the point of death for several days and his attendance departed after saving his life after a series of blood transfusions relieved him only temporarily.

## SENTENCED TO PRISON

CLEVELAND—Harry W. Harmon, 27, former clerk in a Cleveland bank, was sentenced to serve three years in the Ohio state penitentiary by Common Pleas Judge McMahan after Harmon pleaded guilty to an indictment charging him with embezzlement of more than \$10,000.

## WOMAN IS SLAIN, ESCORT HELD

Hamilton Resident Shot While on Way to Church

HAMILTON—(United Press).—James Frank Anderson, 26, formerly of Jackson, Ky., and employed at a paper mill here recently, is held on a charge of first degree murder, following the shooting to death last night of Mrs. Clara Collins, a widow.

Six of seven shots, fired at her took effect. The alleged murder, according to witnesses, and to have occurred the woman and the couple were standing at a street corner, waiting for another man and woman to join them on their way to a religious revival.

Anderson and Collins were reported to have been in the street at the time the shooting occurred. Anderson was seen by several witnesses as he fled from the scene.

Anderson was arrested by Hamilton police and taken to the Hamilton jail. He is being held in lieu of \$10,000.

Anderson was a native of Kentucky and had been in Hamilton for some time. He was employed at a paper mill and was known to several residents of the city.

The shooting occurred at about 10 p. m. last night. Anderson was seen by several witnesses as he fled from the scene.

Anderson was arrested by Hamilton police and taken to the Hamilton jail. He is being held in lieu of \$10,000.

## FALL FROM LADDER INTO TANK OF OIL

Many Firemen Injured While Battling Pittsburg Blaze

TWO CAPTAINS AMONG DEAD

Atlantic Refining Co. Plant Is Scene of Disaster

PITTSBURG, Pa. (Associated Press).—At least seven firemen were killed and many injured in a fire which today broke out in the Butler-st plant of the Atlantic Refining Co. So intense was the heat from the blazing stills and tanks that fire lines were established far from the refinery and newspaper men excluded.

Shortly after 9 o'clock a fireman ran from the fire and while waiting for a telephone connection told newspaper men that no less than seven firemen had been killed when a ladder, from which they were directing water on a burning tank collapsed. All were plunged into the tank, the fireman said, among them being Captain Ed Jones and Captain Rudy Blisko and Hosemen Pat Abbott and John Markham. Others on the ladder, he said, men he did not know, also had been lost.

## DROWNED IN OIL

The seven dead men were drowned in oil, two captains and five hose men of the Pittsburg fire department. The bodies were recovered after the fire had been brought under control with the monetary loss unestimated.

The dead are: Captain Edward Jones, Captain Rudy Blisko, Captain John H. Frazier, Hosemen Pat Abbott, Robert Smith, John Markham and Samuel Hollinger.

A number of firemen also were injured.

The fire broke out in a tank containing 1,000 gallons of oil shortly after 9 o'clock. Seven companies answered the alarm and fire hoses were thrown out for four or five city blocks on each side of the refinery, which adjoins a residential district and has been the scene of a number of costly blazes. Many families deserted their homes and additional fire apparatus was summoned as the morning wore on.

## MEN OVERCOME

Shortly before 2 o'clock captains and hosemen were on a ladder when a tank above the top of a tank, containing the burning oil, The tank was being drawn out when the ladder broke and the men fell into the tank. A chemical extinguisher automatic call released the fire and the burning oil was covered by the authorities and covered the oil and flames arising from it was believed to have overcome the struggling firemen. They sank almost at once and the bodies later were recovered from the manhole at the bottom of the tank.

The other firemen suffered severely leaving the men who were two were rescued from the tank after they fought the flames. All of the injured were taken to the hospital.

The cause of the fire has not been determined by officials and the company would not discuss a statement of the loss which consisted of two buildings, including a large quantity of oil.

## CITY WATER DEPARTMENT WOULD SELL FORD ROADSTER

Authority for the sale of a Ford roadster now in use by the city water department will be asked of the city commission Tuesday night, if authority is granted the car will be sold along with two police cars.

The question of placing a switch in the yard of the Eber Coal Co. is expected to be brought up again in discussion and final action.

## COME TO THE LIMA NEWS COOKING SCHOOL AT THE Y. M. C. A.

Every housewife in Lima is invited to attend the home service school to be conducted by The Lima News for four days, beginning at 2 p. m. Tuesday at the Y. M. C. A. The school will be under supervision of Miss Jessie Booth, an expert in this line of work. Miss Booth will demonstrate the latest methods of cooking and household management. It will be a profitable course for those who attend. There is no expense attached to the school, it being a service offered by this newspaper. The school will be held on the second floor of the Y. M. C. A. in the banquet room. Women are invited to attend every day if possible and if not to attend as many days as they can. Each day's work will be a complete demonstration in itself. Copies of recipes used in the school will be distributed and samples of food will be served during classes. Coffee will be served at the close of the demonstration each day.

## 75 HELD PRISONER AS FERRY STICKS IN ICE

MARQUETTE, Mich. (United Press).—Fifty persons, were held prisoners aboard the ferry boat, which was stuck in the ice on Lake Michigan, and could not move. The ferry was stuck in the ice on Monday morning. The ferry was stuck in the ice on Monday morning. The ferry was stuck in the ice on Monday morning.

PEKING, Jan. 2. — Three times I was told that a woman was to be executed. The executioner's nerve failed, however, at the appointed hour. The woman was a missionary in China, and she had been held captive by thugs.

## GREATEST AIRWAY SCHEME UNDER WAY IN EUROPE

LONDON — The greatest airway scheme yet promoted is to be launched next year by the enormously powerful Trans-Europe Union, four of the seven combined companies which are German in origin and control, says the Daily Mail air correspondent.

The German companies in this group, which seeks an airway control of Europe, are the Aero-Lloyd, Rumpier, Junkers and Bayerische Luft-Lloyd. The three others are the Swiss Ad Astra, the Austrian Österreichische Luftverkehr and the Hungarian Aero-Express.

This combine, in which the Junkers group predominate, aims at the control of something like 12,000 miles of European airways, stretching from Archangel in the north to Athens and Smyrna in the south, and from Lisbon in the southwest to Nakhic-Novgorod, Tiflis and Teheran in the east.

The technically strong Junkers firm, prodding by the researches of the Trans-Europe Union, proposes to supply these great airways with a standard type of passenger air-express for both day and night flying and also for slower bigger machines for the transport of goods.

RUINS OF OLD NUNNERY PRESENTED TO UNIVERSITY

OXFORD — The university has been enriched by the gift of the ruins of Godstow nunnery near here where Rosamond Clifford, the reputed mistress of Henry II, is believed to have been buried. The nunnery was founded by Edith, wife of Robert I. of Normandy, and was destroyed by the monks in 1138.

It is related that when Hugh, bishop of Lincoln, came to Godstow in 1191 he was shown the magnificent tomb of fair Rosamond in the church, and reminded that "for love of her" Henry had done so much good to the church.

The bishop ordered that the body should be taken up and buried outside the church in a place of honor. The body was found in a coffin, and it was believed to be that of Rosamond.

MAYOR TO BE ARRAIGNED ON CHARGE OF ASSAULT

AKRON — Mayor H. V. Johnson, known for his fighting executive, will face a charge of assault and battery in municipal court this afternoon. He was arrested Sunday and released on a \$100 bond on a warrant sworn out by Daniel L. Zeisloft, Kenmore bank secretary.

Zeisloft charges that Johnson forcibly threw him from the mayor's office without provocation. Johnson declares that Zeisloft made several "passes" in an attempt to hit him.

The argument started, it is said, as a result of a "pass" brought before Johnson, then a justice of peace, by Zeisloft here last year. Johnson achieved notoriety and the name of Kenmore's fighting mayor, when he smashed his way into office January 2, after former Mayor Samuel Goodman refused to turn over the keys, due to an election dispute.

GOLF CHAMPION MAY BE OPERATED UPON

PHILADELPHIA — Maxwell R. Marston, national amateur golf champion, is under the care of a physician and may have to undergo an operation for the removal of his tonsils. It became known today. His physician at first feared he might also have to submit to an operation for appendicitis.

GIVES UNIVERSITY \$50,000

CLEVELAND — A graduate who remains anonymous, has given \$50,000 to Western Reserve University to be applied toward a fund to be established to help students of particular promise.

## COOLIDGE 'IN HOLE' ON TAX PLAN

Threat to Veto Now Seen as First Political Error

### MELLON PROPOSAL BEATEN

Democrats Outnumber G. O. P. in House Committee

WASHINGTON, Jan. 2. — President Coolidge may have made his first political error in making it known thru his spokesmen that he probably would veto any tax reduction bill not embodying the principal features of the Mellon plan, in the opinion of certain political leaders here.

It is now apparent that the president will not have an opportunity to sign a revenue measure carrying Secretary Mellon's recommendations. The bill which finally reaches the White House for his signature or veto may be quite different from the "original Mellon plan" as it went to the house ways and means committee.

Prominent Republicans admit that the seasoned Democratic veterans of the ways and means committee, Messrs. Garner, Rainey and Hull, have outmaneuvered their Republican committee mates and "on the verge of getting a bill reported to the house which will look more like the Garner plan of tax reduction than that fostered by the secretary of the treasury, even tho it will be called a "compromise" measure.

If such a bill passes both houses, sustaining still further alterations as it goes, President Coolidge may find himself between two fires. He will be confronted on the one hand with his supposed declaration that the Garner plan of tax reduction was like the Mellon plan, and would veto any other, while the alternative will be a Democratic claim that that party really deserves credit for the tax bill in case the president signs it.

OHIOANS RESIGN

Ohio members of the house have resigned themselves to the support of a "compromise" measure. Some of them are stronger for the compromise than they would have been for a Mellon plan bill, even tho they received hundreds of letters endorsing the latter.

Representative Nicholas Longworthworth of Ohio, Republican floor leader, predicted some time ago that a "compromise" bill was a certainty and Representative Chas. C. Keams of Batavia, Ohio, member of the ways and means committee, will concur in such a bill and urge its passage on the floor.

Representative James T. Bege, of Sandusky, is another prominent Ohio Republican who is perfectly willing that the revenue bill should carry recommendations agreeable to both sides of the house, instead of being "strictly Mellon."

RELATIVES REMEMBER MRS. BORMAN'S BIRTHDAY

OTTAWA — A happy party of relatives extended a delightful surprise Sunday to Mrs. A. Borman of Toledo, formerly of Grandfort, when they presented themselves at her home in Toledo with well-wishes and enjoyed the day. The event was in celebration of her seventieth birthday anniversary.

Composing the party were Mr. and Mrs. H. B. Hoffman, Mr. and Mrs. LaMont Hoffman, all of Lima; Mr. and Mrs. Charles Huber and Mr. and Mrs. Ed. Frick, all of Ottawa; Mr. and Mrs. Louis Huber of Detroit; Mr. and Mrs. J. H. Lampo and children and Arthur Hoffman, all of Detroit; and Edwin Huber of Toledo.

OTTAWA — The Schick test to prevent appearance and spread of diphtheria in the public schools, is to be applied to pupils of both the village and rural schools in Putnam-co. Miss Ethel Keeran, county health nurse, now is visiting various schools in the county, passing out blanks, to be signed by the parents permitting children to be subjected to the test.

Unless we wish to treat the whole population, an obviously impossible task, we must find some means of selecting those who are protected from those who are susceptible; those who have antitoxin from those who have none or too small a quantity to afford protection," Miss Keeran said.

"This may be done by the Schick test, so-called because it was introduced by Doctor Schick in 1913. The Schick test depends upon the ability of antitoxin to neutralize diphtheria toxin or toxin just as an alkali will neutralize an acid. A very small quantity of diphtheria toxin is introduced into the skin of the arm. The quantity is so small that it cannot possibly do any harm. If natural antitoxin is present in the body, it will neutralize the toxin introduced into the skin and there will be no reaction.

"If antitoxin is not present or if the quantity present is too small, the toxin will enter the blood stream, and develop, just as if a drop of hot water had fallen on the skin. Such a reaction indicates susceptibility to diphtheria because of lack of natural antitoxin," she concluded.

Administration of antitoxin will begin late in February. When the tests are made, announcement will be given the public of the date and parents of school youth are invited to witness the administering of the preventative. The test is being put on by the Putnam county health department, in co-operation with the state board of health.

CLUB EXTENSION WORK FOR COMING YEAR OUTLINED

OTTAWA — Plans for the coming year in club extension work were formulated at a meeting of more than 20 big and food club leaders Saturday afternoon with W. H. Palmer of Columbus, state club leader, in the courthouse.

Reports indicated that the work the past year had been most successful, but under the direction of Palmer and the interested leaders present, greater things would be accomplished in the coming year than was done last year.

Statistics presented by Palmer showed that in 1929 there were 34 boys and girls in Putnam-co engaged in club work. In 1921, there were 71, in 1922, there were 42, with 46 per cent finishing the work and in 1923 there was 305, with 65 per cent finishing their tasks.

It developed that two club leaders will be among the club extension work the coming year in Putnam-co. One of these will be located in Leipsic, under the direction of Dr. C. W. Fogle and the second will be at Pandora, with Superintendent C. D. Steiner, leader.

RELATIVES REMEMBER MRS. BORMAN'S BIRTHDAY

### JURY MUST BE UNANIMOUS

Prisoner Becomes Morose; Declines to Talk

Subpoenas for a long list of witnesses who are to testify in the trial of William H. Mohler, to determine whether or not he is insane, were issued Monday.

The list includes: Dr. William Pritchard, superintendent of Columbus state hospital; Walter Schaub, Bluffton; Don Boothby, Bluffton; Christ Gratz, farmer, Bluffton; Roy Scott, court reporter; Roy Bowmick, county detective; a Dan R. Triplehorn, counsel for Mohler.

Mohler, according to Sheriff Crosson, seems depressed as the time of his trial approaches. When he was brought into the jail, Mohler appeared freely with everyone.

Now he is reluctant to talk, and a large measure has withdrawn from communicating and fraternizing with other inmates of the jail.

ATTENDS SERVICES

Mohler was present Sunday when services were held in the jail for prisoners. His request for permission to attend church outside the jail was not referred to Sheriff Crosson.

All twelve members of the jury must concur in the verdict, if Mohler is found insane. If the jury is unable to agree, the matter will be retried before a new jury.

The 12 jurors who will sit in the case are the sole judges of Mohler's mental condition.

It was learned Monday that not a member of the grand jury believed Mohler demented. They were willing, however, to allow him to be tried in sanity, and thus determine the question in the proper manner.

# TODAY'S BIG NEWS

## Now 12¢

That favorite pocket tin of fresh Tuxedo tobacco which has cost you fifteen cents or more for the last five years, is yours for just twelve (12) cents from now on!

Just two things have made it possible for us to give you this 20% reduction on Tuxedo:

1. A reduction in the cost of Kentucky Burley tobacco and in package materials, as well.
2. The consolidation of three of our big plants into one. (Mr. Ford may not be in the tobacco business but he is right about consolidation.)

This gives us a chance to pass an advantage along to all our friends; to share a good thing.

We haven't lost any time in taking advantage of this opportunity.

You know that it is the desire and policy of The American Tobacco Co. to extend to its customers the maximum of service.

Reducing the price of a great favorite like Tuxedo—the moment it's possible—is our idea of delivering this service.

So now you're getting the familiar tin of Tuxedo tobacco at 12 cents instead of 15 cents.

Tuxedo is always FRESH. Every package is—

Argentine Oil Ventures Prove  
Speculative Proposition

15 COMPANIES LOSE MONEY

Of 149 Wells Drilled But Two  
Are Producing Profit

BY A. M. EASTLING

**BUENOS AIRES**—(United Press)—After fifteen companies have spent \$70,000,000 in drilling 149 oil wells in Argentina, the general opinion among representatives of these companies is that the oil business here is "highly speculative."

Of these 149 wells, only two are producing oil in commercial quantities.

One company, the Anglo-Petrol, has withdrawn from the field, after spending \$1,000,000 on prospecting. Virtually all the oil companies are known to be distressed with losses.

There are said to be several reasons for this, the chief being, which are:

**TWO REASONS**

1. In comparison with efforts and money spent, returns have been exceedingly small and prospects are speculative and vague.

2. The government's treatment of private capital. After fulfilling all the requirements of the Argentine mining code under which concessions are granted, and having gone to considerable expense to do this, numerous companies have been refused concessions on the ground new legislation was about to be passed which would reduce the mining code.

The fact is the government is intensely adverse to exploitation of Argentine oil resources by private capital, for the government itself is carrying on a wide promotion movement.

A bill revising the mining code has been submitted to the legislature and while the oil companies operating here are thereby in a quandary with the government in the column

that the old law ought to be amended, they say the new measure would place foreign capital invested in oil at a great disadvantage.

At present the government has an extensive oil reserve, although it is illegally held because the original decree setting aside the land expired in 1920 and has not been renewed.

The present bill before congress would set aside 2,500,000 acres as a government reserve, with the stipulation that concessions to private promoters could be granted under the provision that actual work could be started within a period of thirty days. This stipulation is intended to prevent speculation in concessions.

While it is admitted that the Rivadavia field will produce oil in commercial quantities and while it is believed that other sections of Argentina are good prospective oil fields, the fact remains that many ventures here have flatly failed.

Hugo Stanes has spent 6,000,000 pesos without producing a barrel of oil, and a number of American and British companies have expended a good deal more than they expect to ever get back, unless conditions improve.

At this time it appears certain that very little additional foreign capital will enter the Argentine petroleum industry.

## ZERO WEATHER HALTS BRIDGE WORK AGAIN

Zero weather nipped construction work on E. High and Bellefontaine bridges Monday, and compelled two crews employed by the Roberts Supply Co., contractors, to lay off until milder weather returns.

Construction was halted two weeks ago by a cold wave, and was resumed during the past week. The south abutment on Bellefontaine was poured Friday.

The last piece of High is almost completed. Both bridges are much farther along than was anticipated when work commenced, according to Charles A. H. consulting engineer.

# Do you know what your Building Loan and Savings Associations ARE DOING For this community?

The prosperity of this community depends upon the amount of money available for use here. Invested, money too often works for the prosperity of some other community.

Building, loan and savings institutions keep your money in this community. Money left with building and loan institutions is money which is immediately returned to our manufacturers, to our merchants, to our trades people, to our working population and to our farmers. It jingles in the pockets of our home folks.

You should deposit your idle money with building and loan companies, not only because you are interested in local prosperity, but primarily because they are safe institutions. Not a single depositor in any company listed here has ever lost a penny. Money placed with building and loan institutions is always worth one hundred cents on the dollar, plus accrued interest, and is available when needed.

Building and loan companies are under strict state supervision; they cannot speculate with money left in their care, but can invest it only in first mortgages on real estate, the world's safest security. Your savings in building and loan associations are also protected by strong cash reserves, by various forms of insurance and by conservative officials who are bonded for the faithful performance of their duties. These institutions pay what they have been led to believe, through long years of experience, is the highest rate of interest compatible with absolute safety.

# 70,000 RAIL MEN ON STRIKE

Lines Thruout England Are Tied up by Walkout

## CREWS ABANDON ENGINES

Cessation of Work is Result of Wage Cut

LONDON — (United Press) — Seventy thousand railway engineers and firemen on roads running to every part of England, went on strike today against wage reductions that became effective at midnight.

Railroads thruout the country were tied up, altho several thousand drivers and firemen remained on duty and a limited service was maintained on some lines.

An early morning, country-wide survey showed the strike in full swing. Engineers and firemen who are members of the Associated Locomotive Engineers, which ordered the walkout after strenuous efforts on the part of England's most prominent labor leaders failed, did not show up for work.

Some of those on strike lounged about the shops in their Sunday clothes and jibed at those who remained loyal to the orders of J. H. Thomas and ran the few trains that got away.

There were no reports of sabotage. Efforts of the strikers to interfere were confined to verbal persecution.

### SYPHANTHETIC STRIKE

About 11,000 members of the National Union of Railway Men, Engineers, Firemen and Cleaners, attacked with this organization took out in sympathy with those ordered out by J. Bromley. Members of the associations involved in the strike numbered 39,000. This is nearly 20,000 trained engineers and firemen capable of running trains and railway companies, urging only those who found it absolutely necessary to travel to use the paid service, helped to establish a steadily increasing schedule.

London's great network of subways was not affected by the present strike. Street cars and buses continued to run, carrying many thousands of Londoners who ordinarily depend on local train service. In the event of a strike of 1919 these transportation facilities were completely disrupted.

The strike is confined entirely to engineers and firemen and their helpers. It is due to dissatisfaction of these workers with the findings of the national wage board, which authorized reductions in railway wage scales.

### TRAINS ABANDONED

Last night trains were leaving London on schedule but in some instances their crews ran them to certain pre-arranged points and there abandoned them.

Had the strike been on a "war basis" with fleets of motor lorries mobilized for service in bringing in milk and fresh vegetables to the capital. The heart of the newspaper world of England, was aware with motor trucks rushing in a constant stream thru the narrow thoroughfares, filled with newspapers for points inside London where first effects of the strike was to interrupt train service.

There was little excitement, on the contrary the initial stages of the strike in England's workmen are traditionally law abiding and orderly and anything savoring of violence was discouraged by union leaders.

### STERLING SLUMPS

LONDON — The pound sterling slid badly today falling to 84.1. The decline was attributed to the national rail strike and the French political situation.

French francs were quoted at 91.25 and lire at 97.25.

PARIS — The French franc was slightly lower today being quoted at 22.50 to the dollar at noon.

# NEWBERRY CASE BOBS UP AGAIN

Fight Opens for New Corrupt Practices Act, is Belief

## JOHNSON'S SPEECHES CITED

Orgy of Money Spending Looms, Political Liberals Say

LIMA NEWS BUREAU. 505 Albee Bldg. Washington, D. C.

Progressive members of Congress today interpreted Senator Hiram Johnson's revival of the Newberry case in his speeches before Michigan audiences as revealing his intention to join with them in an effort to secure the enactment of a corrupt practices act with teeth in it.

Plans now are being shaped for an amendment in the senate to compel the committee on privileges and elections to support a bill preventing the expenditure of large sums in presidential primaries, the decision of a supreme court which saved Senator Newberry from a jail term having been out of the federal corrupt practices act its most vital provisions.

NO LIMIT TO MONEY

Congress adopts new regulations which are practically no limit on the money a candidate for the president or his interests may spend in campaigning has been called to this attention by Senator George W. Norris, Republican of Nebraska, and Senator T. H. Caraway, Democrat of Arkansas, who declare that "without such moves the nation will witness an orgy of corruption beside the Newberry expenditure will be of no significance."

The active support of Senator Johnson's presidential aspirant would be a tremendous help to those who are fighting that campaign expenditure be limited rigidly, senators are now saying.

Should Senator Johnson take the lead in the movement to force the senate committee on elections to report out a bill it is believed by progressives that the victory would be good as won.

## FINISH FIGHT ON

"There never was a time when the country was more in need of a corrupt practices act," asserted Senator Caraway today. "Never have I been in public politics have the corrupt business interests and a situation in which they felt they must win, once and for all, or they must die."

Senator Norris was equally emphatic in his denunciation of existing conditions. "A poor and chance on absolutely no change on the part of the senate," he said, "he can command substantial financial support from interested parties."

He declared he would support a bill which would punish those who govern "ices and turn out those who are public office by such means."

It is pointed out that a majority of the members of the senate are on record as opposed to large campaign expenditures, thru their vote to expel Senator Newberry or in campaign pledges to assist in the enactment of restraining legislation.

At least a dozen senators in 1922 made successful campaigns on the Newberry issue. The vote of Senator Kellogg of Minnesota, against the return of Newberry, is declared to have been a big contributing factor in the election of Senator Shipstead.

Johnson's corruption was also denounced by Senator Magnus Johnson, his successful fight in Minnesota.

The senatorial elections in New Jersey, New York, Indiana, Washington, Wyoming, New Mexico, Colorado and a number of other states were held on the question of "Newberryism," and the senators chosen by those states are pledged to support a corrupt practices act and are said to be preparing a bill that will meet all requirements.

When Senator Johnson returns to Washington he will be interviewed by reporters and urged to take leadership of the fight to free the hand of Senator Spencer's election committee.

It is asserted that he will have back of him more than a majority of the members of the senate, and that no obstacles will be encountered in the house.

## Cuticura Soap

The Healthy Shaving Soap

Conquer Constipation Or It May Conquer You! PENE-A-DAY

Guard Against "Flu" With Musterole

To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c, in jars and tubes.

MUSTEROLE

Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It is all the good qualities of the old-fashioned mustard plaster without the blister.

Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief.

Have Musterole handy for emergency use. It may prevent serious illness.

To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c, in jars and tubes.

# Does Marriage Block Your Job? Give Up Husband

BERLIN — A rush to the divorce courts has been produced by the regulation that women teachers, married to men who hold government positions, are to be dismissed to make way for women who have no husband to support them.

Feminists are up in arms, but the unemployment situation is so serious that radical measures apparently have public support, and divorce seems to be the only means by which married women teachers can be assured of continuation in service.

Private schools also are following the policy of dismissing married women whose husbands earn salaries.

## PLEA BACKS GOLD STANDARD

Director of Bank of England Wants Pre-war Status

EDINBURG. — (Associated Press) — Addressing the bankers' institute here recently, Sir Charles Addis, a director of the bank of England and chairman of the Hong Kong and Shanghai bank, made a strong plea for return of the gold standard as existing before the war.

Upon the issue of the conflict which swung round this project he said, might depend whether Great Britain was to regain her former supremacy as the financial center of the world, or was to sink to the level of a second-class power.

After reviewing the pre-war standard system Sir Charles said the conditions precedent to its restoration were a cessation of government borrowing, the effective use of the bank of England's rate of discount and the legal limitation of fiduciary note issues. It could not be too widely known, he said, that such was the official British monetary policy.

Dealing with the charge that the official monetary policy was a main cause of the existing trade depression and unemployment, he asked "Has any substantial relation of the nature of cause and effect been established between the currency policy and trade depression?"

Sir Charles said the present trade depression had been intensified and extended by the war, but it would be wrong to regard it as altogether abnormal. "I seemed to him fantastic," he said, to single out the policy of deflation as the principal cause of unemployment.

## GERMANS KNOW POPCORN

BERLIN — Popped corn, first introduced into Germany when the American soldiers were in Cologne, is being sold on the streets of Berlin this winter. Under the name "schnee flossen," it sold readily for holiday decorations.

# E. W. BOK BALKS AT PROBE

Refuses to Tell Size of His Peace Plan Fund

WASHINGTON. — (United Press.) — The senate investigation of the Bok peace award came to an abrupt halt today when Edward W. Bok refused to tell the committee the size of a fund he said he had established to advertise his \$100,000 peace plan.

After telling the committee he had paid every penny of expense connected with the \$100,000 peace award himself, Bok declined under pressure to tell the size of the total fund or how much he has spent on the ground that it was a personal matter.

Failing to move Bok, the committee adjourned to meet this afternoon to discuss means of forcing Bok to answer.

The committee may communicate with Bok's bank in Philadelphia to find out how much he has spent.

Bok's refusal threw the committee into an uproar. Senators Moses, Caraway, Reed of Missouri, and Green of Vermont, harried him for an hour but all he would say was:

"This is my business. It's my affair pure and simple."

Once Bok asked Reed what he meant by the word "propaganda?" "If you don't know, you've got no business attempting to regulate the affairs of the world," Reed said.

Senator Caraway, lone Democratic league of nations advocate on the committee, urged Bok to tell the amount spent.

"Don't you think you have hurt your plan by not telling what you spent?" Caraway asked.

## SAFE ROBBED

HAMILTON — The finding of John Egge, private night watchman handcuffed to a steam radiator this morning revealed that three men had slugged him and robbed the safe of the Strauss Clothing and Shoe Company store here last night of Saturday receipts, checks and boots, the total value of which was not reported to the police.

## FREE STATE NOT TO TRY DE VALERA OR HIS AID'S

DUBLIN — It is stated in republican circles in Dublin that the government has no intention of bringing De Valera to trial and this decision is believed to apply to other prominent republican leaders now in custody.

The release of the more influential of the leaders, however, is not at present contemplated. If they are to be held after February some parliamentary provision extending the temporary power to hold them will have to be made, and this may be done as part of the usual measure for continuing various acts which expire annually unless renewed.

## DANA M. KING NAMED AS DELPHOS HIGH PRINCIPAL

DELPHOS — Dana M. King, who has taught three years at Delphos high, is now principal there, succeeding S. C. Warner, who replaced H. R. Hick as superintendent of the Delphos public schools.

King took his office Monday morning at the opening of the second semester at the Jefferson-bldg. Mrs. D. M. King, who had been with the junior high students is now instructor of domestic science in the senior high.

Mrs. Clarence Jenkins, who was formerly a substitute, replaced Mrs. King in junior high.

## NEVADA GASOLINE TAX NETS STATE \$100,000

RENO, Nevada. — A tax on gasoline, effective in Nevada for less than a year, has netted the state more than \$100,000.

Aggregate sales at the last report were 6,271,861 gallons. Funds collected by the state are divided between the state and counties for use in highway improvement.

## COURTHOUSE REVEAL

Rev. Joseph Wingate, of Lima, will conduct revival services in courtroom 2, in the basement of the courthouse every night this week, he announces. The meetings will be conducted as gospel services.

# Regained Strength After Operation By Taking Tanlac Treatment

"The Tanlac treatment has built me up to better health than I had ever known before," is the striking statement of Mrs. Jack Clemmens, highly esteemed resident of 405 Galloway-av., Columbus, Ohio.

"Even from childhood I have been unable to eat pork or other meats, and sound sleep was unknown to me. Following an operation, four years ago, I remained so weak and nervous, and had so much trouble with indigestion, headaches and dizziness that I got to be one of the most discouraged and hopeless persons living."

"Tanlac has built me up from ninety-two pounds to one hundred and twenty and I look and feel like a different person. I now eat right, sleep right and feel right and with my new found health depression and gloom has given place to happiness and contentment. I can never praise Tanlac enough."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Take Tanlac Vegetable Pills. adv

# JAXON MAKES HEADQUARTERS AT HUNTER'S DRUG STORE EXPLAINS PEPGEN TO PUBLIC

Well Known Research Worker Comes to Lima to Explain Famous Compound for Stomach, Liver and Kidney Ailments

## FACTS ABOUT PEPGEN

Is purely vegetable—Composed of most beneficial herbs and roots known to science. Publicly endorsed through daily press by hundreds of well known local people. Absolute merit responsible for unprecedented success. Formula comprises all pure food and health laws of United States. Is being introduced here under personal supervision of Walter Ellis Jaxon.

Great interest centers in the arrival of Walter Ellis Jaxon in Lima to explain to our citizens the uses of Pepgen, the new discovery, which has attracted widespread attention wherever it has been introduced. Pepgen is especially valuable in treating stomach, kidney and liver ailments.

Mr. Jaxon will make his headquarters while in Lima at Hunter's Drug Store on the Public Square.

Lima is unusually fortunate in having Mr. Jaxon here to explain the uses of this remedy. He is a man of profound knowledge, whose ideas on health have made him an interesting figure wherever he has lectured. It was largely through his efforts that Pepgen was discovered. He having added in sending research workers to various countries to obtain the roots, barks and herbs of which Pepgen is composed.

OFFERS VALUABLE SUGGESTIONS

Mr. Jaxon is known throughout the country for his logical views on how to grow strong and how to preserve health. During his stay here he will make a careful study of local conditions and will gladly offer suggestions to all who call on him as to how they may grow strong and well.

While he has been in Lima but a

## FATHER AND SON REACH AGREEMENT

"I'll tell you, Mr. Jaxon," said Mr. Latham, "my son Earl and I agree that your medicine Pepgen is fine. Earl began taking it before I did. It did his stomach trouble so much good that I began taking it too."

Before I started taking Pepgen I used to be bothered with gas on my stomach after every meal. My food seemed to just lay in my stomach heaving, just like a stone. I would have a dull heavy pain right across the top of my stomach. At night it was so bad that I couldn't get any sleep. Then this gas would cause me to bloat up and I would belch. And in the morning I just felt tired out, like I hadn't been to bed. My tongue would be white and I would have a sort of sour taste in my mouth.

"After I saw how Pepgen was helping Earl I got a bottle and started taking it. It helped me almost from the first dose. I found myself eating like I hadn't been in months, and after my meals there wasn't any pain or gas like there had been. I sleep just fine now and in the morning when I get up my head is clear and I am fresh and ready for a day's work."

"Pepgen is what put me on my feet and I am glad to recommend it to everyone in Lima."

Pepgen may be obtained in Lima only at Hunter's Drug Store, Public Square and Main and W Streets and at The Argonne opposite the post office.

An Invitation To Every Woman In Lima And Vicinity

Here is a wonderful chance to learn how to cook and cook properly, economically and quickly.

The Lima News Free Cooking school starts Tuesday afternoon at 2 o'clock. It will continue each afternoon during the week at the Y. M. C. A. Auditorium.

All women are invited.

It is free.

Nothing is going to be sold nor will you be solicited to buy anything.

This is a cooking school for you thru the courtesy of The Lima News.

Each day there will be a new dish prepared by experts in their respective line and you will be allowed to sample these morsels.

Those in charge of the Free Cooking School have been brought here by The News, all for the benefit of the women of Lima and vicinity.

They are here today on the ground and are making preparations for the opening Tuesday afternoon at 2:00.

Everywhere these experts have shown there has been the deepest interest and it is worth your time each afternoon to go to the Y. M. C. A. and see how these folks prepare different foods right under your eye.

Following these demonstrations the recipes of the previous day will appear in THE NEWS and you then try them out yourself.

How to cook Properly, Economically and Well is worth learning no matter how fine a cook you are.

Come and see how the Lima News Free Cooking School experts do it.

Remember each afternoon at 2.00, starting Tuesday and continuing through and including Friday.

## The New LIBERTY Electric Washer

WILL BE DEMONSTRATED AT THE NEWS COOKING SCHOOL—

**\$87<sup>50</sup>**

THINK OF IT!

A efficient, durable, handsome electric clothes washer and wringer for the price of a good vacuum cleaner. Should any woman be compelled to toil six or eight hours over a steaming wash tub every week, breaking down her health and ruining her nerves when the whole job can be done by machinery at an insignificant cost. Here is a standard, fully guaranteed washer, with a copper tub, a Westinghouse motor, auto clutch drive, oilless bearings, cut steel gears, rubber castors, fully enclosed in a handsome steel enameled case for \$87.50.

The New Liberty is the wonder of the washing machine industry, and the price—about half the price of other standard machines—is made possible through superior engineering, large production, and sales direct to the dealer by which the profits of the middlemen are saved to the ultimate buyer. If you need a washing machine, don't overlook the opportunity to examine the New Liberty NOW.

SELLERS KITCHEN CABINET, TABLES, CHAIRS, RUG AND REFRIGERATOR FURNISHED BY

**THE Hoover-Bond CO.**  
THE STORE OF THE PEOPLE

Some time ago Mr. George was asked by an interviewer, "What is your favorite amusement?" The novelist replied: "Looking about a great city between midnight and dawn." His reason he gave as follows: "At night it is the unexpected happens. The few people about you would be in bed, were it not for some casual cause; love, purpose of crime, agony of apprehension, or black poverty. Lonely under the stars, these people seek company; they willingly confide in you; and even enlist you in their schemes. Thus Mr. W. L. George has rendered hundreds of nights in London, Paris, Barcelona, New York, etc. He has participated in several exciting adventures, which he relates here, altering the names and details for the sake of his strange companions of the night. These of these adventures actually happened to Mr. George; three are slightly amended. They make up the picture of darkness and passion which stands behind the face of every great city, and represents a hidden world into which the daring can penetrate.

### THE SLIPPER OF RED BROCADE

I

There comes a moment in a dance when one has really had enough of it. Such a moment occurred one night at about two o'clock, in the middle of the ball which the Marchioness of Drimming was giving for her daughter, Adeline. Drimming House is very large, occupying as it does the site of four houses in Curzon-st. But the acquaintanceship of the marchionesses would have been better suited by the Albert Hall; not only had she asked everybody she had ever known, but a number of smaller dances, in the course of the night, removed themselves to Drimming House, while thirty or forty of the guests brought with them the reinforcement of the complete dinner parties they had attended that night. Thus the ball was

THEY WERE STRANGE, FOREIGN-LOOKING MEN, IN READY-MADE CLOTHES.

pandemonium. Things went pretty well up to midnight, but then the clothing increased. At first there was little room to go forward; then we grew reduced to turning round and round on the same spot; just before two o'clock when I was partnering Lady Adeline, even this movement became possible, and the ball resolved itself into one vast throb under intense heat. We tried to step to the fashionable "Waltz Me to Dreamland," but at last Lady Adeline informed me that she felt faint, which was not remarkable, and I fought my way in football style thru black coats and low-cut frocks, destroying as I went, many yards of georgette and charmeuse. Fortunately somebody else was entitled to Lady Adeline; at least he said so, for I will wager that no one could hear the band thru the noise eight hundred people were making. I caught a glimpse of the marchioness, blockaded for the night in a corner; one of the tables of the buffet was upset with a crash by a rush of people wanting champagne. Trembling with exhaustion I found myself in the hall, readjusted my tie, and swore to myself that I would get out of this . . .

I could now hear the jerky one-step "Chop-chop Chinaman." As still two people were coming in, and as nobody was going out, I obtained my exit by case, and paused just outside, against the railings, enjoying the cold night. Tho it was May, frost hung in the air; the sky was of an exquisite pale green, studded with gold by stars; the street, beyond the zone of light, was dark, the carriages, shone white under the moon. But the wind stung my face. Fearing a chill, I went rapidly toward the west. Visions of bed and the hope of at last getting my collar off occupied my mind. But a man, and after a moment I realized that I wanted a cigaret. Reaching the archway that leads into Shepherd's Market, I hunched myself up to the eaves. A cold little wind was blowing, and the match went out. I slipped into the darkness of the archway, but unfortunately the wind whirled me into it; here began the tragedy that all men know, lighting a match in the wind. Turn where I would, hunch myself up, or bend down to the ground, every match flared and went out before the tobacco would burn. I was strained and hot, growing more and more determined, seeking for a light, as one by one the matches vanished. It took me nearly five minutes to light that cigaret; in the middle of my struggle I was conscious of the sound of a taxi drawing up and moving away past the archway. With a breath of relief I turned to go out, my cigaret well lit; I beheld an extraordinary spectacle.

Before me, a young and apparently beautiful woman, in full evening dress, was engaged in curious antics. At one moment she bent down and picked something. At others she took a nimble little run, then ran to the left or left in circles.

At that moment I perceived a fox terrier. I felt stupefied, not being accustomed to seeing in the middle of the night ladies in flame-colored brocade playing with fox terriers in Curzon-st.

"Pick it up," said the woman, desperately. "Jack, Jim, come here. Come here, come here, oh, you devil."

I picked, for now the fox terrier, some little way off, was sitting down, wagging its tail vigorously; he had something in his mouth. The woman faced in despair. She made a helpless movement with her hands. Evidently she wanted to catch the dog; evidently, too, I must help her. I stepped out of the archway, and, as I so did, pausing uncertainly, she turned to me and said, "Oh, there you are, No. 5 . . . I mean No. 9. Do you catch this dog? I came forward, going toward the dog. No. 9? She called me No. 9? She must have expected me at this very spot. Suddenly I made attractive noises to the dog, who promptly danced in a circle of excitement, making circles round both of us: "Why?" I asked. "He's got a slipper in his mouth."

Of course he's got a slipper. It's my slipper. It dropped off as I stepped out of the taxi, and this . . . this dog picked it up. And he gave it me back."

I tried to interest the dog, who joined in the game with enthusiasm. His mind was working; she had made a slip; she had called me No. 5 only after that No. 9. That was because No. 5 was occupying the slipper. She must be No. 5. Anyhow, I'd risk it. It wouldn't do any harm. I said: "It was careless of you, No. 5."

Now it was, she said, angrily. "Perhaps we'd better not move. He might drop it."

I watched the fox terrier for a while. The girl asked why she had called me before and supposed I had drawn the lot by proxy. Meaning throwing us a glance of disappointment because we would not play the game, the fox terrier had now settled a little way off, far from the slipper, he was beginning to eat it. Then I did a silly thing. Hoping to catch the dog unawares, I shouted and leapt toward him. He started up, alas, taking up the slipper. Nimble dodging me, he slipped into the archway. I can into Shepherd's Market, the woman limping after me. For one moment I thought I had caught the creature, for I saw him, but he rushed between my legs, then into a corner where he hid for when I turned he had disappeared. Then, in the distance, we heard a clock strike the half hour. The woman made a desperate gesture. "Too late! We can't go after him now."

I was just going to suggest finding her a taxi to drive her home, for the peculiarities of the case, when from the four corners of Shepherd's Market, detached themselves men. They were strange, foreign-looking men, in ready-made clothes, except one, who, like ourselves, was dressed in fashionable garb. When they were quite close, the woman in a low tone remarked: "No. 5."

Then men were staring at me. So, determined to see this to the end, I murmured: "No. 9."

"Right," said one of the men in a low tone. "Now, do you mind?" I said that a handkerchief was being slipped over my eyes, but as I had had to see another handkerchief being made ready to blindfold my companion I did not resist. Besides, the man in evening clothes volunteered explanation in the shape of a question: "I suppose your committee always blinds friends from another district?"

"Oh, always," said Number 5, saving me a reply.

We were walking on; meanwhile the man in evening clothes talked in a low tone: "It's quite as well, you see. Like that, if one comes to get caught, the others don't get taken also. Besides, we haven't to go." Where we went I still do not know, for our guards followed a circuitous route, turning us round rapidly, diving into corners and coming out. Perhaps we went three hundred yards, perhaps fifty, I hardly found myself being led into a house. The door closed behind me, my handkerchief was taken off. I went into a ground floor room from which the street could not be seen as the shutters were up.

### Exhausting coughs that wear you out— you can stop them quickly

Day and night a cough wastes your strength and steadily paves the way for more serious and perhaps permanent complications. Yet you can stop it quickly with Dr. King's New Discovery. It breaks up coughs by stimulating the mucous membranes to throw off

Dr. King's New Discovery. It breaks up coughs by stimulating the mucous membranes to throw off

the secretions that are clogging them. Harmlessly and effectively the throat and chest spasms are quieted and the irritation that is causing the cough promptly cleared away. It has an agreeable taste. For more than fifty years, thousands of families all over the country have relied upon it. Get a bottle today. All druggists.

## THE TANGLE

An Intimate Story of Innermost Emotions Revealed in Private Letters

LETTER FROM BEATRICE GRIMSHAW TO HER FRIEND, SALLY ATHONTON

MY DEAR SALLY:

I do not know just what you want me to say to you; in fact, neither do I know just what I want to say to you.

Three months ago I would have been very sure of exactly the kind of advice you needed, but now, my dear, I am a little hazy about it. All of which makes me feel, after all, perhaps, advice is a very silly thing to give.

Your letter came to me at a time when I was very much mixed up in my mind about the whole subject, of which you seem to be in doubt.

Before Dick went to California, I was sure that in all this world there was but one man for one woman, and only one woman for one man.

Now I have almost come to the conclusion that any woman is made for any man. If a man and woman come together and they have the same tastes and interests it is only a question of time when they will think that at least they have found their true mate.

Of course, it is a poetic and sentimental thought and somewhat egotistical as well, to think that Fate has a particular interest in you, and that when one falls in love with someone who seems to return that love in kind, it fulfills one's pride. That Fate has brought together the only two people in the universe who are in accord, is a pleasant thought.

Now I am not so sure of this. Our overcrowded divorce courts attest that mistakes are made by poor, blinded humanity in the matrimonial selection sweepstakes, quite as often

as it makes in any of the other affairs of life.

When Dick went to California we both felt we could not endure a long separation. It was decided between us that just as soon as he got settled I was to go to him. Arriving there, however, he immediately became absorbed in his new work. This I perceived from his first letter was the most novel and exciting he had ever known. It took him also into a completely new life. He met people—men and women—the like of whom he had never met before.

His mind was stimulated by contact with other minds whose viewpoints on all questions were entirely different from his. His emotions were stirred by the sight of women whose beauty is exotic and fascinating as a new, hitherto undreamed-of flower.

From the first I saw that a complete change had come into his outlook upon life, and altho I tried to follow him, it was impossible for me to do so. Consequently, we have come to the parting of the ways.

Sally, I have just received a very disquieting telegram from Dick. Will finish this letter tomorrow.

BEE.

## You Must Fight Film

No whiter teeth without that

If you want whiter teeth, you must combat the film that clouds them. Millions do that now. Wherever you look you can see the results.

Make this free test and see the results on your own teeth.

### The cloud is film

The cloud on teeth is film. At first the film is viscous. You can feel it new. No ordinary tooth paste effectively combats it, so much of the film remains.

Soon it becomes discolored, then forms dingy coats. That's how teeth lose beauty.

Film also causes most tooth troubles. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

You have little chance to escape such troubles if you do not fight the film.

Dental science has now found two effective film combatants. One

### Protect the Enamel

Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combatant which contains harsh grit.

**Pepsodent**  
The New-Day Dentifrice

Now advised by leading dentists the world over

disintegrates the film, one removes it without harmful scouring.

These methods were proved by many careful tests. A new-type tooth paste has been created to apply them daily. The name is Pepsodent. Now careful people of some 50 nations employ it, largely by dental advice.

### See what it does

Pepsodent also multiplies the alkalinity of the saliva. That is there to neutralize mouth acids. It multiplies the starch digestant in the saliva, to digest starch deposits better. These combined results are bringing to millions benefits you want.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth become whiter as the film-coats disappear.

You will always be glad that you made this test. Cut out coupon now.

10-Day Tube Free

THE PEPSODENT COMPANY,  
Dept. N, 1104 S. Wabash Ave., Chicago, Ill.  
Mail 10-Day Tube of Pepsodent to

## Local Scrapper Ready And Confident In Most Important Bout Of His Career

### All Ready For Boxing Show—Rini Arrives Fit For Bout With Gross

All awaits the going to begin the boxing show at the new Orpheum Monday evening. Johnny Rini, the clever lightweight arrived in Lima Monday morning from Cleveland accompanied by the trainers and manager Jimmy Dunn. Word comes from the training camp of Jackie Gross that he has been working hard and is fit for the battle of his life. Sammy Hess, the old war horse of the squared circle is here, fit as he always is for his go with Warner, one of the toughest propositions at 133 pounds in this part of the country. No real sport can help liking such a game boy as Sammy Hess. In all his hundreds of battles he has yet to show the white feather, and he should go in an odds-on favorite against overwhelming odds. But you never can tell in a boxing bout. It is certain that Gross has a chance to win. He has had the experience of certainly eleven and packs a hard wallop. If he can gauge the defense of Rini, at the beginning, he should come out with the stiffer honors.

The whole card is one that should attract boxing fans. Earl Smith, doing all in his power to make this a satisfactory show, with the intention of continuing them every two weeks. It would seem that he has accepted the hazard in matching Gross against a clever boy, one for the benefit of future boxing in Lima than good judgment in handling Gross.

The consensus of opinion is that Rini will win. No one will know for certain until the bout has been fought. There may be a surprise in store for the Gross admirers. But whether there is or not, it is certain would seem that the Cleveland boy is a battle royal.

This boy Rini has been improving ever since he sided his career among the professionals, after beating all the best amateurs in the country. It is one will judge the showing both boys made against Horvath, the only boy who ever knocked Gross down. It would seem that the Cleveland boy is a battle royal.

EVANS TELLS ABOUT GENEWICH

Last spring when I dropped into St. Petersburg, Fla., to look over the Boston Braves in training there, the first fellow I bumped into was the veteran Charley Farrell, one of the greatest catchers the game has ever produced. Farrell was acting as coach to Manager Mitchell, confining his activities to developing the young pitchers. He was just the man I wanted to see as I was more concerned about the promising youngsters, being familiar with the ability of the regulars.

"You better get your dope from Mitchell, Billy, he is the manager, I am only the coach," was Farrell's characteristic reply. "However, when you go out to the park this afternoon take a look at Pitcher Genewich. I like his chances." That was all Charley would say.

That afternoon I watched Joe Genewich pitch to Farrell for a half hour. He looked rather slight to me to stand the big league strain. I also wondered if his fast ball would prove good enough to trouble the major league hitters. When I pressed Farrell for an opinion, he expressed the belief that Genewich would prove a winner if he developed a good slow ball. When I asked for dope on Genewich's past performances, I learned that he had come to Boston without any major league experience, in reality a sandlotter.

Last season Joe Genewich was the pitching sensation of the National League. It is an interesting fact that George Uhle, who was the big noise in the American, also came to Cleveland from the sandlots.

Genewich apparently is a very unusual young man. He was dug up by George Grant, former owner of the Boston Braves. Pitching for a small town team Genewich won 27 out of 30 games. Grant tried to sign him, but when he was ready to do business with any big league club Boston would get first chance at his services. These facts were related to me by Grant.

A year later Pittsburgh made a much better offer than Boston's terms. He got in touch with Grant who immediately agreed him. He appreciated the fact that Grant first talked a big league team to him.

Coach Farrell knew what he was talking about when he told me to watch Genewich. In developing Genewich, Farrell has earned his salary for years. How does Genewich regard Farrell? Listen.

"What ever success I have had, I owe to Charley Farrell," he says. "I have only fair speed and curve, but have always been blessed with good control. Farrell insisted I could win in the National League if I developed a good slow ball. I had none then. He never lost patience with me and when I started north I had learned a change of pace. My slow ball has made possible my success. I take my bit off to my coach, Charley Farrell." Unusual young man, Joe Genewich.

### PROS, AMS AND SICH

Go ahead and let your young son play with your . . . When he grows up he may know enough about tiles to fix the bathroom floor.

After General Dawes gets Germany back on her feet he might hop over to London and see what he can do for the Boerers.

While the fighter broke his hand the other day but unfortunately it had no effect on the vocal cords of his garrulous manager.

It is easy to understand how Cy Young managed to win more than two games . . . They didn't have the lively ball skill in those days.

By referring to prizefighters as cheese champions, sport writers may not realize how grossly they insult the savory hamburger.

A ski jumper is nothing more than an old skater who has resolved to stick to the straight and narrow.

To cure his wildness a Chicago pitcher decided to have his curls cut off. . . . Would you call this an eye-bash decision?

Walter Camp will not be asked to enter his all-American team in the Olympic games, the officials holding that comedy features are unnecessary.

An English lightweight made his American debut the other night and wasn't knocked out. Showing that the uncertainties of life are beyond all human understanding.

As a tribute to his success in swinking the convention to New York the Democrats ought to make their party slogan read, "Thank God for Rickard, he has kept us out of St. Louis."

American sleep too much, says a Russian visitor, going far out on his way to embrace the big league.

Still if the thing comes to an out-and-out showdown we imagine it will be quite possible to hold the Olympiad without either Faddock or the A. A. F. officials.

NEW YORK — One fast round with "bare knuckles" between Sam Strom of Columbia and Johnny Klass, of Princeton, ended the Columbia-Princeton basketball game Wednesday night. It was a draw. Columbia won the game 22 to 21 and remained undefeated for the season.

CHICAGO — Pierre Maupome and Hugh Heal, Toledo one star divided honors in national three-cushion league matches here. Maupome lost the first frame 30 to 36 and won the second 30 to 40.

CHICAGO — Mayor George E. Leah, Minneapolis, manager of the American Olympic ski team, will sail for Europe Saturday to attempt to obtain the 1928 Olympic games for Chicago. He left here today. The ski team sailed Tuesday.

A Chicagoan has perfected a mechanical collar that does perfectly.

Not being able to discourse plausibly on short missed punts it probably will be very popular.

FISHING THRU THE ICE MAY BE SPORT FOR SOME GUYS, BUT WE PREFER THE MORE SIMPLE AND PRACTICAL PROCEDURE OF WALKING TO THE CONER DELICATESSEN STORE.

Not that we mean to be ungrateful, but have you noticed that in connection with these European visitors a 20-cent face almost invariably accompanies a pair of million-dollar legs?

The National Butchers Association are to hold a 20th tournament. Watch your slice, fellows.

Eddie Foster is going to quit baseball and take up preaching. We imagine this comes under the head of sacrifice plays.

Cobb Strong for Manush. To Cobb regards Outfielder Manush as the best prospect that has broken into the majors in years. He looks for him to be one of the best stars in the game inside of three years. "Manush has wonderful natural ability," says Cobb, "he needs only to learn how to make use of it to be one of the stars of the game. He's a great batsman right now and is sure to improve. For a kid he is very fast. He still has considerably to learn about fielding but is picking up in that style."

### NEW YORK RIVALS PAID PLENTY FOR DEAN AND COMBS

DEAN AND COMBS

Two of the most sought after young ball players in the minors—Wayland Dean, a pitcher, and Earl Combs, an outfielder, were recently added to the pay rolls of the rival New York clubs. Dean went to Mr. McGraw's Giants while Combs was grabbed by Mr. Huggins' Yankees.

Dean was the best pitcher in the association last year. Combs is said to be the best outfielder to come out of the south since the days of Jackson. It is needless to add the New York clubs paid plenty for their newest acquisitions.

### AS A MATTER OF FACT

Being a Criticism of the Just and the Unjust in the World of Professional and Amateur Sports

BY HARVEY BRADBURY

The death of Frankie Jerome caused from a blow on the temple administered by Bud Taylor, has been cause for the thousands who are opposed to boxing contests to do all in their power to have the sport stopped. This is especially true in the state of New York. But is this just cause. It is quite certain that as long as sports are in vogue there will be unfortunate accidents. This is not only true of boxing but of every strenuous sport. If we take the records of football, it is quite certain that the fatalities will far exceed those of boxing per capita. We all regret fatal accidents and it is certain that the only remedy is to abolish all these vigorous sports, where the hazard is great. This can never be.

The fault in a majority of times, is not directly connected with the particular sport in which the athlete is playing, but the individual condition of the man. It was proven that Jerome had been boxing too severely and that he was not in physical condition in his match with Taylor. It is certain that no sport is more strenuous than the game of self-defense, and there is no game where a man must necessarily be in perfect physical condition, than in boxing.

This point should be carefully looked into by a physician or some other person able and competent to judge before entering the ring. If this is carefully adhered to, there will be less fatalities. I have often heard coaches of football teams call attention to the importance of knowing that a player is physically fit, before he is allowed to take part in a game. There can be no argument against this; it is good common sense.

It is not to say that Layvine was maliciously responsible for the accident. Jess Willard killed "Bull" Young in just the same manner, and maliciously but, that carelessness of those who had the construction of the ring in hand. There was the sad case of Luther McCarthy, who was killed by a blow on the head delivered by Artie Pelley. And there have been many. If we take the fatalities of the gridiron we would have a list as long as the mental list.

What is the remedy? Are we to year, and statistics show us that they are just three times as dangerous as railway train accidents, causing deaths and near deaths, will always occur, no matter how much precaution is taken. It has been so since the world began and will continue to the end of time. The human side is to endeavor to prevent them as much as is earthly possible, more than that no man can do.

It was defective rings, not fists, that sent champs sailing

(By JOE WILLIAMS.)

Three years ago Benny Leonard, champion of the lightweights, battled Charley White, Chicago's perennial challenger, in an out-door bout at Benton Harbor, Mich.

Leonard had been out on the coast working in the films and while he was in fine physical condition he was somewhat handicapped on account of an extended period of inactivity.

White gave him a thrilling fight, before losing in the ninth round. In one of the earlier rounds White rushed the champion across the ring and nailed him to the ropes with a left hook. A moment later Leonard found himself clear outside the ring, thinking on his toes, if he could start terms with the cash customer.

After the fight a picture was sent broadcast through the country showing Leonard, badly fixing through ropes, and White, completely in a state of collapse.

Upon this one episode was built a enormous demand for a return fight between the two lightweights. Leonard had proved a "cash cropper" and had clearly proved his superiority.

"What of it," the gambler asked, "What White knocked him out of the ring?"

As a matter of fact White did not knock Leonard out of the ring. The champion was sent sailing by a defective ring.

loosely strung. Leonard backed into them, intending to support himself and fight off White's attack. But the ropes sagged and he fell out of the ring.

It did look as if the champion had been knocked out of the ring, and enough capital was made of the incident to bring about a return bout which would have attracted a \$200,000 house. That this return bout was not held was due to Mr. White's indiscretion in getting himself knocked out by Pat Moran.

Jack Dempsey and Luis Firpo will undoubtedly battle again next summer for the second time despite the fact that the good but gawky senior is not many degrees removed from the ham club.

Dempsey fought a rash fight against Firpo last summer, almost on nothing and yet he won by a knockout in two rounds.

Neither of the two middle-aged men, however, was the quili's main act. "Bully" Firpo knocked him out of the ring.

On the night of the fight it was expected that the fight would have been a close one, but it didn't.

There was a man who built his reputation on knocking Billy Graham to the ground. "That's the way," the crowd roared, "let's see him knock out the champion." But he didn't.

### Bidding Is Spirited For St. Louis Star, But Price Asked Is Too High

(BY HENRY L. FARRELL)

NEW YORK — (United Press) — Exercising rights of citizens in a free country, the Boston Braves let it be known they would like to have Rajah Hornsby.

It was developed, however, that hope of getting the St. Louis star lasted only until Branch Rickey, the Cardinals manager answered the question—"How much do you want for him?"

Rickey, it is understood, said: "We will take Joe Genewich, Cotton Tierney, Mickey O'Neil, Jocko Conlon—and \$100,000 in coin."

The deal was then dropped the Braves protesting such trade would leave them with Hornsby and a ball park in hock.

Judge Emil Fuchs caused another fluttering of the public pulse when he announced that the Braves had offered \$250,000 for Hornsby last summer. He figures, from the valuation placed upon the players demanded by the Cards for Hornsby, that the St. Louis owners looked upon their second sacker as a \$400,000 asset.

It was suggested here that the Braves in asking Hornsby's price were prompted by the same curiosity that prompted a shop girl to sit in a Rolls-Royce at the automobile show and ask him how much it is.

The Braves, of course, never could swing a deal for Hornsby, but it is likely that a deal will be made with the Cards for other players before Rickey leaves New York.

Rickey wants a catcher, and the Braves, having O'Neill, Gibson and Smith, are in a position to get rid of them. Dave Bancroft, the new manager of the Braves, would like to have Jeff Pfeffer, the big St. Louis pitcher, and Rickey doesn't want him.

Talking about Hornsby, Rickey insisted that the Cards were not peddling him, that he was sure to play with St. Louis next season. He said if the Giants wanted him they would have to make all the motions and do all the talking.

John McGraw and the Giants insist they are on the Hornsby deal and that they are satisfied with the McGraw infield.

McGraw is now trying to get all his athletes signed on new papers. The first official holdout of the Giants is Weiland, head of the young pitchers bought recently from the Louisville American Association club. Dean sent his contract back and said he would not sign unless the salary he drew in Louisville was doubled.

HORNBY LIKES ST. LOUIS

ST. LOUIS, Mo., (Associated Press) — The hot stove league has lost one of its favorites, subjects, Cochran in the recent New York sale or trade of Rogers Hornsby, leading pitcher of the national league club of the St. Louis, Ros.

He himself halted the trade talk, right with the statement that he would be with the Cardinals in finishing second to Hoppe and Wells in the championship tournament. Hoppe has defended his championship against Cochran's challenge.

The contest is the third meeting Hoppe and Schaefer in as many seasons. Each holds three consecutive year and that he would strive to win the other.

Willie Hopp Will Meet Schaefer

CHICAGO—Willie Hoppe of New York, world's champion 15.2 ballkili billiardist, and Young Jake Schaefer former champion, will meet Monday night in the first 500 pool block of a three-night 1500 pool match for the championship. Schaefer is challenging in the turn acquired finishing second to Hoppe and Wells in the championship tournament.

The contest is the third meeting Hoppe and Schaefer in as many seasons. Each holds three consecutive year and that he would strive to win the other.

HANDLING CROWDS BIG PROBLEM OF COLLEGE FOOTBALL OFFICIAL

"The big problem of today in football is the handling of the crowd that each Saturday flock to the big games all over the country." A prominent eastern coach so expressed himself to me during the football season. I had asked him if there was anything wrong with football as played, a suggestion that he might have for the improvement of the game.

"The game is all right," continued the coach, "but the increased popularity of the sport has presented a new angle from the college standpoint that must receive some consideration."

A week after talking to the eastern coach I was attending one of the big games in the middle west. I put the question to one of the western coaches. His college is the possessor of one of the big stadiums. I was surprised when he practically concurred with all that the eastern coach had said on the subject. Unquestionably there is a decided change in the spirit of the crowds that attend a big football game today compared with gathering 10 years back. Football has become the national fall pastime just as baseball is the national pastime during the summer months.

A football crowd is no longer a gathering of the old grade and undergraduates of the institutions playing, but rather a crowd made up of the masses, a great many of whom have no college traditions to adhere to when they go to the game. Most of them are there because football is a strenuous sport and they like it.

No longer does a football crowd sit in silence except when called upon by the cheer leader. There is a certain element that persists in giving the athletes the "razz." In the parlance of sport this is known as expressing disapproval when some player or team fails to deliver. It is a very common practice in professional baseball, has been for years, but is new from a football standpoint. Then there are the acoustics to be considered. With a crowd of 50,000 in an uproar over some thrilling play it is impossible to get signals that can be heard on the playing field. Unquestionably this condition will eventually lead to the elimination of signal-giving in football.

"The new stadiums have made signal-giving an impossibility," says Zuppke. "I am strong for the huddle. It can be done with less delay than the mere calling of the signals and there is no chance for a mistake as the player in doubt has a perfect right to call for a check on the play. The huddle is certain to solve the acoustic problem, but it is questionable if the action of the crowd can be controlled. The colleges build stadiums to accommodate
